WELCOME TO THE SMARTER E EUROPE

“Accelerating Integrated Energy Solutions” – this is the goal of The smarter E Europe, Europe’s largest alliance of exhibitions for the energy industry. The aim is to create a future-oriented energy world by shining a spotlight on renewable energies, decentralization and digitalization as well as cross-industry solutions from the electricity, heat and transport sectors for a sustainable 24/7 energy supply.

Spanning four exhibitions, The smarter E Europe brings together relevant players from around the world, showcasing the latest market developments, trends and technologies. The four exhibitions will take place from June 23–25, 2026 – for the first time running from Tuesday to Thursday – at Messe München.

- **Intersolar Europe** – The world’s leading exhibition for the solar industry
- **ees Europe** – The continent’s largest and most international exhibition for batteries and energy storage systems
- **Power2Drive Europe** – The international exhibition for charging infrastructure and e-mobility
- **EM-Power Europe** – The international exhibition for energy management and integrated energy solutions

More than 100,000 visitors from around 160 nations, including numerous delegations, come to The smarter E Europe to obtain information on the latest technologies and international markets.

Visit The smarter E Europe 2026 with your delegation and meet the international players of the energy future from the most influential markets! We look forward to your visit.
