**Industrial Enclosure
Solutions with 30 years of
sectoral experience**

birtes.com.tr

about us

We strive to offer a unique service level to our customers since our establishment.

We are proud of providing the best quality enclosure alternatives and everything that you will need inside an enclosure with the most economic-friendly conditions. We represent many manufacturer brands in Turkey, which are leaders in their field globally.

We offer you any solutions in line with your requirements through our manufacturer partners' products at international standards, our experienced sales team, unique engineering and technical support services.

The base of our business is our deep knowledge that we gained in enclosures after 30-year occupational accumulation and experience.

our mission

We commit to offer excellent service, competitive prices and high quality. We show every effort to obtain the best solutions in each project by keeping in mind the customer satisfaction first. Our experience and expertise play a great role to increase quality of our products and services.
