Munich becomes the centre of the European solar industry again from 23 June – and K2 Systems, as one of the world's leading manufacturers of photovoltaic mounting systems, will be right at the heart of it. Under the trade show motto Connecting Strength – People. Power. Projects., the company presents at Hall 6, Stand A6.280 its broadest portfolio to date: from innovative rooftop solutions and façade systems to PV carports and new ground-mount systems.

Highlights include:

- K2 Pi-Rack – the new steel structure system for large-scale ground-mount installations
- D-Dome 6.07 Classic Portrait – portrait orientation at 7° tilt on flat roofs for the first time
- K2 GreenRoof 2.0 – optimised for the growing demand for green roof PV installations
- SingleRail 36/50 RailConnector – tool-free rail connection on pitched roofs, the counterpart to the Dome 6 Xpress Connector for flat roofs
- K2 PV-Carport Variant V – stable twin-post system for wide spans
- MyK2 Dashboard – all digital services on one platform
- First sustainability report to VSME standard
